

Risk Manager/Risk Lead/Risk Engineer

Description: Cassidy Consulting Group is seeking a Risk Manager/Risk Lead/Risk Engineer for the weapons programs with strong information technology background. This is a W-2 job opportunity. Please visit our website to learn more about Cassidy Consulting Group – <https://www.cassidyconsulting.us>.

Functional Requirements:

- Has a technical background (e.g., degree in engineering, physics, chemistry, or equivalent work experience) sufficient to engage in technical discussions and elicit problems and possible resolutions from risk owners.
- Must have a Q-clearance (or DOD equivalent) that is active or able to be reactivated prior to start date.
- Needs to have a basic understanding of project management practices and activities to engage with risk owners, project controls, and program management on the cost, schedule, and scope impacts of risks and response plans.
- Must be able to take a leadership role in identifying, documenting, communicating, reporting, and resolving risks.
- Must understand what a risk is (IF [event], THEN [impact]) and how to score (probability and consequence)
- Needs to be able to perform qualitative risk analysis using NNSA's published thresholds, bonus points for understanding how to perform quantitative analyses and working with the LLNL folks that perform SCURAs to interpret the inputs and results.
- Must be able to interact with stakeholders internal and external to LLNL, including serving as LLNL's primary point of contact to NNSA FPO for all aspects of risk.
- Needs to run Risk Review Board (RRB) meetings and drive discussion to a consensus decision.
- Must be able to enforce quality in our risk register by
- Ensuring risks are clear with respect to cause and impacts.
- Ensuring response plans are actionable and being implemented.

Desired:

- Experience with ARM or similar risk management software tool
- Prior weapons experience and/or product realization experience

Location: On-site Livermore, California in a Secure Compartmentalized Information Facility (SCIF)

Certification: Certified Risk Management Professional

Clearance Requirements: DoE "Q" or DoD "Top Secret"
