

## Senior Network Administrator/Engineer – 100% Remote

**Description:** Cassidy Consulting Group is seeking a Senior Network Administrator/Engineer (Remote). This is a W-2 job opportunity. Please visit our website to learn more about Cassidy Consulting Group – <https://www.cassidyconsulting.us>.

### Position Requirements

This position is for a Network Engineer focused on the implementation and sustainment of switches, routers, firewalls, load balancers and network management tools. The focus is a datacenter environment supporting two separate DoD networks. Responsibilities include network management/analysis/troubleshooting, developing, and maintaining local operating procedures and policies, developing and maintaining network automation and scripts, and monitoring the ongoing operation of the network.

### Required Skills:

- 5+ years of Network Engineering
- 5+ years of configuring and maintaining switches, routers, firewalls, load balancers and network management tools
- Experience with network management, analysis and troubleshooting tools
- Experience with Data Center Management
- Ability to train junior team members
- Excellent interpersonal and teamwork skills, analytical and problem-solving skills, written and verbal communication abilities
- Experience in implementing and maintaining security management strategies. (DISA STIGs experience preferred but not required)
- Experience with development of project documentation to include standard operating procedures, project plans, and network diagrams
- Strong networking background
- Strong troubleshooting skills
- Strong documentation skills

### Desired Skills:

- 5+ years of switch management experience
- Experience with the Cisco Nexus (7K, 5K, and 2K) line and Cisco Catalyst line
- Experience with Palo Alto firewalls
- Experience with Cisco ACI
- Experience with F5 load balancers

### Education:

Systems Engineer – Senior: Masters +10yrs, or Bachelors +12rs

**Security Clearance:** DOD Secret (Fully Adjudicated) as a minimum

**Citizenship:** United States

### Required Certifications:

CompTIA Security+

Computing Environment (CE) Certification Professional Level or higher (i.e., Cisco CCNP, Cisco CCNP Datacenter, Juniper, Palo Alto, F5 etc.)
